PURPOSE: To obtain a durable deodorizing cloth at a low cost keeping the appearance and color of the original cloth in spite of the use of a deodorizing agent.

CONSTITUTION: This deodorizing cloth is produced by applying a deodorizing agent to a cloth 14 containing core-sheath yarn 13. The core part 11 and the sheath part 12 of the core-sheath yarn 13 are composed of fibers having different dyeability. The deodorizing agent is dyeable to

the core fiber 11
and free from dyeability to the sheath fiber 12 and,
accordingly, the agent is
dyed exclusively to the core fiber 11 of the core-sheath
yarn 13.
